May 7, 2008

Dear Car Wash Operator/Owner,

We have been using a reclaim system at 15 of our Holiday Car Wash locations supplied by the Reclaim Equipment Company located in New Prague, MN. In addition to supplying reclaim systems; we have had an on-going business relationship for over 10 years with Brian Dohm, the Principle of the Company, in several aspects of our car wash operations, including the purchase and installation of car wash equipment, as a car wash chemical supplier, as well as, a partner in developing an unlimited car wash program.

We recommend this reclaim system as a means to better control WAC/SAC charges from your respective municipality, reduce your water consumption and promote adherence to an environmentally friendly operation. We found their reclaim equipment to be reasonably priced, efficient, effective and durable.

Sincerely,

David P. Phillippi  
Operations Manager  
Holiday Companies
